

Getting an NSF GRF

DAVID FOUHEY

Assistant Professor
Computer Science and Engineering

Tuesday, September 17, 2019
2:00 pm 3725 Beyster Bldg.

Attention CSE Graduate Students!

The NSF Graduate Research Fellowship Program (GRFP) supports outstanding graduate students pursuing research-based masters and doctoral degrees in science, technology, engineering, and mathematics. For more than sixty years, the GRFP has provided three-year fellowships to thousands of individuals with demonstrated potential for significant STEM achievements.

Prof. David Fouhey will speak in detail about the GRFP, what you can expect to gain from a fellowship, the application process, and what is looked for in applicants. All CSE graduate students with an interest are encouraged to attend.
